4. The filters will stay if you click the back arrow

The screenshot shows a web browser with the URL `lca.maalbar.dk/maalbar-acme-test/products/prd_wjdpvt8fra6/screenings/scr_fk...`. The browser's address bar contains a back arrow, a forward arrow, a refresh icon, and the address. A red arrow points to the back arrow. The page header features the MÅLBAR logo and navigation tabs: Screenings, Locations, Routes, Country Shares, and Insights. The main content area displays the product name 'Chair Daisy - Leg - Lacquer' with a sub-category 'Dining/meeting'. Below this is a 'Components' section with a search bar and a table with columns: Name, Supplier location, Waste, Emission, and Last updated. A bar chart is visible on the right side of the components section.

5. Click 'Screenings' to view the data without any saved filters

The screenshot shows the 'Screenings' page in the MÅLBAR application. The 'Screenings' tab in the navigation bar is highlighted with an orange circle. The page title is 'Screenings'. Below the title is a search bar and a filter dropdown menu showing '1 SELECTED'. A 'Clear filters' button is also present. The main content area is a table with the following columns: Product name, Category, Supplier location, kg CO<sub>2</sub>e, and Created at. The table contains two rows of data:

<input type="checkbox"/>	Product name	Category	Supplier location	kg CO <sub>2</sub> e	Created at

At the bottom of the page, it says 'Showing 1 to 2 of 2 results' and 'Rows per page 50'.
